

KNIGHTS TO BE WELCOMED

Visitors En Route to California.

Salt Lake Real Estate As- sociation Appoints Com- mittee to Act.

Proposition to Establish a Bureau of Information Meets Unani- mous Approval.

Two important matters were taken up yesterday at the regular weekly meeting and luncheon of the Salt Lake Real Estate association. One was the appointment of a committee to look up the matter of entertaining the Knights Templar delegates to the great convocation to be held in San Francisco in September, when they pass through this city; the other, the establishing of a permanent bureau of information on some prominent Main street corner, where tourists and strangers may be provided with reliable facts concerning the resources and advantages of Salt Lake City and Utah.

To Welcome Templars.

Delegates to the Knights Templars' convocation will number 100,000 representative men, largely from the Eastern and Middle Western States, and all will pass through this city either going to San Francisco or on the return trip home. Ordinarily, the stops made on trips of this character are of brief duration, and one of the duties of the committee appointed by the Real Estate association will be to try to induce those in charge of the Knight Templar excursions to attend the time of the stop-over in this city from an hour or two to at least twenty-four hours. This would mean not only that the travelers would expend in the aggregate a much larger sum of money here, but also that they would have time to be shown the city and its environs in a way that would be pleasant and profitable to them and result in much future benefit to the city. It is believed that such an arrangement will meet the approval of more than nine-tenths of the great army of Knight Templar excursionists, for the break in the long journey would be grateful and the time well occupied, while it would undoubtedly be one of the most effective advertising measures for this city that could possibly happen.

Are Good Investors.

Knights Templars are not only representative men, but they are investors, as a rule, and it would be only necessary for them to see the advantages of this city to become interested in it as a place for the profitable investment of capital. They are accustomed to regarding investments as very good which yield from 2 to 5 per cent, and when they are brought face to face with opportunities of making from 6 to 10 per cent without question, there is no reason why there should not be something doing as a result of their visit to this most prosperous section of the Great West.

W. J. Halloran, who was chairman of the meeting, appointed on this committee Walter G. Tuttle and B. A. M. Froiseth, who were authorized to name the third member of the committee. They are expected to report at the next meeting upon the prospect of securing the twenty-four hours' stop-over for the Knights Templars, and also to present a plan for the entertainment of the visitors.

Bureau of Information.

The proposition to establish a permanent bureau of information at some prominent location in the city was presented in the form of a motion by Secretary A. Richter, and it met with unanimous approval. This is recognized by all as something the city has long needed, and it is believed that not only real estate men, but business men in all lines will be only too glad to aid in supporting such an institution properly managed. It is proposed by the Real Estate association to appoint an assistant secretary who will devote his entire time to this bureau, to be located near one of the prominent joint railroad ticket offices. The bureau will be well provided with literature descriptive of the city and State and their resources, and the secretary in charge will be ready to give free to tourists all general information which they may desire. The members of the association are enthusiastic over this project, believing that it will bring to the city every year many thousands of dollars which would otherwise be invested elsewhere.

Other Projects Suggested.

Many other advertising schemes were suggested at yesterday's meeting, but nothing except the local information bureau was definitely decided upon, the consensus of opinion being that measures involving the expenditure of the money realized from the Real Estate day celebration should be well considered and only the very best adopted.

A. Richter, secretary-treasurer of the association, reported on the finances of the celebration, his report showing that 20,200 tickets had been sold and that the net sum realized from their sale was \$2155.30. The meeting tendered a vote of thanks to Thomas Partridge, who had charge of the sale of tickets, and a committee, consisting of Walter G. Tuttle, A. C. Sadler and Edgar S. Darling, was appointed to draft a resolution thanking the public and the press and the donors of gifts for their parts in making Real Estate day the success that it was.

KOLITZ EXCURSION

To Ogden, July 10.

Fare \$1.00 for the round trip, via D. & R. G. R. R. Trout and chicken dinner at the Hermitage in Ogden canyon. A nice outing for families. Special train leaves Salt Lake 10:30 a. m. Returning, leaves Ogden 10:00 p. m.

C. F. MARTIN ON WAY TO PORTLAND

May Establish Large Packing House in Oregon Metropo- lis.

Secretary C. F. Martin of the National Livestock association passed through Salt Lake Tuesday, en route to Portland, Or. It is understood that he was joined at Pocatello by S. J. Hagenbarth, president of the association, and that their business at the Oregon metropolis is in the interest of a large packing house that is to be established in that city.

Such establishments formerly were confined to a limited area from Chicago to Kansas City, but of recent years, the West has realized that as it was steadily growing in livestock importance there was room for many packing-houses in this region and the one at Denver has demonstrated the practicability of the idea. Local butchers who still pay tribute to the Missouri river houses, are eager to see one at Salt Lake and from what is said it will not be long before one will be added to Utah's commercial plants. The Oregon plant would be able to supply the Northwest and Alaska.

GETS CONTRACTS TO FURNISH THE DESKS

B. A. McMillan was awarded the contract for furnishing the desks for the Lafayette school by the committee on buildings and grounds of the Board of Education yesterday. The contract for teachers' desks was awarded to the Harris Furniture company. The total cost for the pupils' and teachers' desks will approximate \$3300.

The pupils' desks are the individual adjustable make, with seat and desk proper separate. The contract calls for 250 of these desks, at a total cost of \$2500. The teachers' desks are made of oak. The committee ordered that 30 of these desks be purchased, at a cost of \$11 each.

SECOND SOUTH PAVING LIKELY TO GO THROUGH

Indications are now that the proposition to pave Second South street, from Third East to Ninth East, will be carried. Many protest had been entered on account of a misunderstanding on the part of the property owners in regard to the cost and the terms upon which the improvement is to be made. Since it has become known to the property owners that the cost will not exceed \$10 a foot—that the difference between the actual cost and the assessment of \$13 a foot will be rebated to them—and that ten years' time will be given for making payment, owners representing more than 400 feet of the proposed paving have withdrawn their protests, and it is believed this will admit of the improvement going through.

TANNER'S BAR.

In the case of Mrs. Bartlett, who is being prosecuted by the city for keeping a house of ill-fame, the entire morning was occupied in the City court with the hearing of the witnesses for the prosecution. In the afternoon Will F. Wanless, the attorney for the defendant, made a motion to dismiss the case on the ground of there being insufficient evidence to allow of the case going before the jury. The case was continued until 2 p. m. today.

Harry Williams, who was arrested for stealing two razors shortly after his marriage, was found guilty of petit larceny. His fine was fixed at \$30.

Alice Spriggs, a colored woman, believes in the old English adage of "Every man's—his own house, his or her castle." Therefore she was very indignant at being fined \$15 for being drunk and disturbing the peace in her own house.

Of the ten gentlemen of fortune raped in by Hilton and Preese, the majority pleaded guilty. Seeing that they were being given two hours to get out of town, the remaining ones changed their plea to guilty in order to be able to confer the same privilege on Salt Lake City.

John Cooney is the name of the man who tried to carve Henry Jackson, a negro, with a pocket-knife. The two got mixed up in a fight and Cooney was starting to give the court his version when the case was postponed.

James Daley, who is being held on suspicion of being wanted for murder in San Francisco, was remanded until today.

John Murry met a lady on the Fourth in a street car. The lady was thirsty and John was flush, so they went to a drug store. An appointment was made, but when Murry went to keep it he was not welcome. As he explains, it was not so much the price of the drink he minded as being bunched, so he proceeded to make trouble. This cost him \$15 more, and John Murry feels that he has not been treated right.

ITEMS OF INTEREST FROM FT. DOUGLAS

The Twelfth and Twenty-second batteries at the post will see great changes in its ranks during the next three or four months. Within eight weeks both organizations will be very much depleted, there being more than 150 men to be discharged therefrom. The men have served their entire enlistment at Fort Douglas and, owing to the fact that the men are generally energetic, but few will re-enlist. The battery commanders have made application to the War Department to have the organizations filled up with new men as rapidly as the old ones are discharged. The batteries each number 100 men, the required quota.

The post commander is taking an ac-

SEVIER BRIDGE RESERVOIR PLAN

Land Commissioners Defer Action.

State Engineer Unable as Yet to Determine the Feasibility.

Data Has Been Furnished Him Upon Which to Base Final Re- port.

Nothing will be done at the present time by the State Board of Land Commissioners in the matter of the Sevier bridge reservoir project. The State Engineer was unable to determine the feasibility of the scheme upon the information furnished him, and it was decided at the meeting of the board yesterday to hold the matter in abeyance until more accurate information has been secured.

Sevier Bridge Reservoir.

This proposition, known as the Sevier bridge reservoir project, contemplates the storing of the waters of the Sevier river in Juab county for the irrigation of thousands of acres of land in Millard county. The amount of land that could be reclaimed by this project is estimated at 10,000 acres. It is proposed to build a dam in the Sevier river, about 19 miles south of the town of Juab, and to convey the stored waters down the river channel into Millard county, there to be diverted into a system of canals to the land to be reclaimed. The possibility of the whole scheme depends upon the amount of water that can be obtained, and whether the land that the same will irrigate would compensate the State for constructing the reservoir. The estimated cost of the reservoir is \$120,000.

Doremus Makes Report.

State Engineer Doremus reported to the land board at its previous meeting that from the information he had been able to obtain he could not determine the feasibility of the project. Under the laws of the State Land Board can not use any of the reservoir fund in investigating these projects. The board may appropriate money from the fund for the construction of reservoirs, but there is no provision permitting expenditures in making preliminary surveys and measurements to determine the feasibility of a project. The next Legislature will be asked to amend the statutes on this point.

Data Not Furnished.

After the State Board took the Sevier bridge proposition up, State Engineer Doremus requested the people of Millard county, interested in the project, to furnish him certain information. It seems the farmers were unable to furnish the required data in full, and much of the information furnished was of a less certain and unreliable nature. For these reasons the land board does not feel justified in making an appropriation at this time. Their action in no way mitigates against the proposition, but the members feel that they would not be justified in constructing the reservoir until its feasibility has been better demonstrated.

Active interest in the organization of a well-equipped and well-drilled fire department for Fort Douglas. New equipment has been applied for, and the men are given an hour's drill daily under the supervision of a commissioned officer. A new detail is drilled each day, to put all the troops in proper condition to respond at the first general call of "Fire!"

Major Walter A. Thurston left yesterday for Washington, D. C., to be absent two months on leave of absence. It is rumored that the Major may not return to Fort Douglas, but will retire from the service of the United States army.

July 13 is the date set for the Twelfth and Twenty-second batteries to go to Strawberry valley to have their annual target practice. The troops are getting themselves in shape to make the trip, it being a distance of 100 miles. Their complete camp equipment will be taken, and they expect to cover the distance in three days. The batteries will be absent about five weeks, returning to the post the latter part of August. Although these organizations contain many skilled men in the art of firing field-pieces, they expect to improve last year's record.

From St. Louis Through to Baltimore and Washington.

Fast night express leaves St. Louis 11:35 p. m. over the Vandalia-Pennsylvania with through sleeping car, arriving Baltimore 7:15 a. m., Washington 8:30 a. m. Also through cars to Philadelphia and New York in same train. Consult George T. Hull, District Agent, Denver Colo., or J. M. Chesbrough, Assistant General Passenger Agent, St. Louis, Mo.
